## INDEPENDENT AUDITORS' REPORT

## To the Directors of Chilliwack Foundation

We have audited the accompanying financial statements of Chilliwack Foundation which comprise the statement of financial position as at June 30, 2016, the statements of operations, changes in net assets and cash flows for the year then ended, and notes comprising a summary of significant accounting policies and other explanatory information.

## Management's Responsibility for Financial Statements

Management is responsible for the preparation and fair presentation of financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditors' Responsibility

Our responsibility is to express an opinion on financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## KAMA

## Page 2

Opinion
In our opinion, the financial statements present fairly, in all material respects, the financial position of Chilliwack Foundation as at June 30, 2016, and its results of operations, changes in net assets and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

## Notes to the Financial Statements

For the year ended June 30, 2016

## 1. Incorporation and nature of the organization

The Chilliwack Foundation was created by an Act of the British Columbia provincial legislature on June 28, 1985. This perpetual body was created to receive donations in trust so that the net annual income from such donations would be devoted perpetually to charitable purposes, principally within or near the boundaries of the former Regional District of Fraser-Cheam (as defined within the Act), in British Columbia.

## 2. Significant accounting policies

The accounting policies used by the Foundation are stated below to assist in understanding the financial statements.

## Basis of presentation

The financial statements of the Foundation have been prepared in accordance with Canadian accounting standards for not-for-profit organizations.

## Fund accounting

The Foundation follows the restricted fund method of accounting for contributions.
The General Fund:
There is no activity in the General Fund and therefore it is not disclosed in the financial statements.
Restricted Funds:
The Common Trust Fund comprises those assets contributed for perpetual management by the Foundation. The contributions within the fund are further segregated into an undesignated or specific fund category according to the terms of the donor. The Foundation exercises discretionary investment control within guidelines established by the Board of Directors.

The Distributable Income Fund accounts for all revenue, expenses and net assets of the Foundation which are available for distribution within the guidelines of the Foundation.

## Investments

Investments are valued at current market prices on the last day of the fiscal year. Gains or losses arising from investment transactions, including the revaluation of investments to current market prices, are reflected in the Common Trust Fund. The Foundation has entered into a pooled investment arrangement whereby investment income is allocated between general and specifically donated funds, held within the Common Trust Fund, based on the average net asset balance during the year.

Market value for non-publicly traded investments is determined on the basis of generally accepted valuation methods which best and most objectively reflect the expected value that would be agreed upon in an open and unrestricted market between fully informed, knowledgeable and willing parties dealing at arm's length and without constraints.

The process of valuing investments from which no public market exists is inevitably based on inherent uncertainties and the resulting values that would have been used had a ready market existed for the investments. These differences could be material to the fair value of the investment portfolio.

## Revenue recognition

Contributions are recognized on the earlier of when they are received or when the deeds of gift have been approved.
Bequests are recorded upon receipt of the donated assets. Bequests in a form other than cash or marketable securities are recorded at fair value as determined by the Board.

Interest on bonds, debentures and short-term notes is recorded using the accrual basis. Dividends which have been declared are recorded as income on the last date of record set for the dividend. Interest and dividends are recorded as revenue in the Distributable Income Fund.

# Chilliwack Foundation <br> Notes to the Financial Statements <br> For the year ended June 30, 2016 

## 2. Significant accounting policies (Continued from previous page)

## Financial instruments

The Foundation recognizes its financial instruments when the Foundation becomes party to the contractual provisions of the financial instrument. All financial instruments are initially recorded at their fair value.

The Foundation subsequently measures investments in equity instruments quoted in an active market at fair value. Fair value is determined by published price quotations. Investments in equity instruments not quoted in an active market and derivatives that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, are subsequently measured at cost less impairment. All other financial assets and liabilities are subsequently measured at amortized cost.

Transaction costs and financing fees directly attributable to the origination, acquisition, issuance or assumption of financial instruments subsequently measured at fair value are immediately recognized in the excess of revenues over expenses for the current period. Conversely, transaction costs and financing fees are added to the carrying amount for those financial instruments subsequently measured at cost or amortized cost.
Financial assets are assessed for impairment on an annual basis at the end of the fiscal year if there are indicators of impairment. If there is an indicator of impairment, the Foundation determines if there is a significant adverse change in the expected amount or timing of future cash flows from the financial asset. If there is a significant adverse change in the expected cash flows, the carrying value of the financial asset is reduced to the highest of the present value of the expected cash flows, the amount that could be realized from selling the financial asset or the amount the Foundation expects to realize by exercising its right to any collateral. If events and circumstances reverse in a future period, an impairment loss will be reversed to the extent of the improvement, not exceeding the initial carrying value.

## Measurement uncertainty (use of estimates)

The preparation of financial statements in conformity with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

These estimates and assumptions are reviewed periodically and, as adjustments become necessary they are reported in excess of revenues and expenses in the periods in which they become known.

## 3. Commitments

The Foundation has committed to scholarships, awards and grants totaling \$146,351 at June 30, 2016. Payment of these awards and grants are conditional on the recipients meeting certain criteria and providing certain supporting information.

# Chilliwack Foundation <br> Notes to the Financial Statements <br> For the year ended June 30, 2016 

## 4. Financial instruments

The Foundation, as part of its operations, carries a number of financial instruments. It is management's opinion that the Foundation is not exposed to significant interest, currency, credit, liquidity or other price risks arising from these financial instruments except as otherwise disclosed.
