INDEPENDENT AUDITORS' REPORT

To the Directors of Chilliwack Foundation

Opinion

We have audited the financial statements of Chilliwack Foundation (the "Entity"), which comprise:

- the statement of financial position as at June 30, 2021
- the statement of operations for the year then ended
- the statement of changes in net assets for the year then ended
- the statement of cash flows for the year then ended
- and notes to the financial statements, including a summary of significant accounting policies

(Hereinafter referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Entity as at June 30, 2021, and its results of operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *"Auditors" Responsibilities for the Audit of the Financial Statements*" section of our auditors' report.

We are independent of the Entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Entity's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

 Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Chilliwack Foundation Page 3

- Conclude on the appropriateness of management's use of the going concern basis of
 accounting and, based on the audit evidence obtained, whether a material uncertainty
 exists related to events or conditions that may cast significant doubt on the Entity's ability
 to continue as a going concern. If we conclude that a material uncertainty exists, we are
 required to draw attention in our auditors' report to the related disclosures in the financial
 statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions
 are based on the audit evidence obtained up to the date of our auditors' report. However,
 future events or conditions may cause the Entity to cease to continue as a going concern.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

1. Incorporation and nature of the organization

The Chilliwack Foundation (the "Foundation") was created by an Act of the British Columbia provincial legislature on June 28, 1985. This perpetual body was created to receive donations in trust so that the net annual income from such donations would be devoted perpetually to charitable purposes, principally within or near the boundaries of the former Regional District of Fraser-Cheam (as defined within the Act), in British Columbia.

Impact of COVID-19

Impact on operations of COVID-19 (coronavirus):

In early March 2020 the impact of the global outbreak of COVID-19 (coronavirus) began to have a significant impact on organizations through the restrictions put in place by the Canadian, provincial and municipal governments regarding travel, business operations and isolation/quarantine orders.

The Foundation's operations were not materially impacted by COVID-19.

At this time, it is unknown the extent of the future impact the COVID-19 outbreak may have on the Society as this will depend on future developments that are highly uncertain and that cannot be predicted with confidence. These uncertainties arise from the inability to predict the ultimate geographic spread of the disease, and the duration of the outbreak, including the duration of travel restrictions, business closures or disruptions, and quarantine/isolation measures that are currently, or may be put, in place by Canada and other countries to fight the virus. While the extent of the impact is unknown, we anticipate this outbreak may cause reduced customer demand, supply chain disruptions, staff shortages, and increased government regulations, all of which may negatively impact the Society's business and financial condition.

2. Significant accounting policies

The accounting policies used by the Foundation are stated below to assist in understanding the financial statements.

Basis of presentation

These financial statements of the Foundation have been prepared in accordance with Canadian accounting standards for not-for-profit organizations.

Fund accounting

The Organization follows the restricted fund method of accounting for contributions.

General Funds:

There is no activity in the General Fund and therefore it is not disclosed in the financial statements.

Restricted Funds:

The Common Trust Fund comprises of those assets contributed for perpetual management by the Foundation. The contributions within the fund are further segregated into an undesignated or specific fund category according to the terms of the donor. The Foundation exercises discretionary investment control within guidelines established by the Board of Directors.

The Distributable Income Fund accounts for all revenue, expenses and net assets of the Foundation which are available for distribution within the guidelines of the Foundation.

2. Significant accounting policies (Continued from previous page)

Investments

Investments are valued at current market prices on the last day of the fiscal year. Gains or losses arising from investment transactions, including the revaluation of investments to current market prices, are reflected in the Common Trust Fund. The Foundation has entered into a pooled investment arrangement whereby investment income is allocated between general and specifically donated funds, held within the Common Trust Fund, based on the average net asset balance during the year.

Market value for non-publicly traded investments is determined on the basis of generally accepted valuation methods which best and most objectively reflect the expected value that would be agreed upon in an open and unrestricted market between fully informed, knowledgeable and willing parties dealing at arm's length and without constraints.

The process of valuing investments from which no public market exists is inevitably based on inherent uncertainties and the resulting values that would have been used had a ready market existed for the investments. These differences could be material to the fair value of the investment portfolio.

Revenue recognition

Contributions are recognized on the earlier of when they are received or when the deeds of gift have been approved.

Bequests are recorded upon receipt of the donated assets. Bequests in a form other than cash or marketable securities are recorded at fair value as determined by the Board.

Interest on bonds, debentures and short-term notes is recorded using the accrual basis. Dividends which have been declared are recorded as income on the last date of record set for the dividend. Interest and dividends are recorded as revenue in the Distributable Income Fund.

Measurement uncertainty (use of estimates)

The preparation of financial statements in conformity with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

These estimates and assumptions are reviewed periodically and, as adjustments become necessary they are reported in excess of revenues and expenses in the periods in which they become known.

2. Significant accounting policies (Continued from previous page)

Financial instruments

The Organization recognizes its financial instruments when the Organization becomes party to the contractual provisions of the financial instrument. All financial instruments are initially recorded at their fair value.

The Organization subsequently measures investments in equity instruments quoted in an active market at fair value. Fair value is determined by published price quotations. Investments in equity instruments not quoted in an active market and derivatives that are linked to, and must be settled by delivery of, unquoted equity instruments of another entity, are subsequently measured at cost less impairment. All other financial assets and liabilities are subsequently measured at amortized cost.

Transaction costs and financing fees directly attributable to the origination, acquisition, issuance or assumption of financial instruments subsequently measured at fair value are immediately recognized in the excess of revenues over expenses for the current period. Conversely, transaction costs and financing fees are added to the carrying amount for those financial instruments subsequently measured at cost or amortized cost.

Financial assets are assessed for impairment on an annual basis at the end of the fiscal year if there are indicators of impairment. If there is an indicator of impairment, the Foundation determines if there is a significant adverse change in the expected amount or timing of future cash flows from the financial asset. If there is a significant adverse change in the expected cash flows, the carrying value of the financial asset is reduced to the highest of the present value of the expected cash flows, the amount that could be realized from selling the financial asset or the amount the Foundation expects to realize by exercising its right to any collateral. If events and circumstances reverse in a future period, an impairment loss will be reversed to the extent of the improvement, not exceeding the initial carrying value.

3. Commitments

The Foundation has committed to scholarships, awards and grants totaling \$161,603 at June 30, 2021 (2020 - \$169,040). Payment of these awards and grants are conditional on the recipients meeting certain criteria and providing certain supporting information.

4. Financial instruments

The Organization, as part of its operations, carries a number of financial instruments. It is management's opinion that the Organization is not exposed to significant interest, currency, credit, liquidity or other price risks arising from these financial instruments except as otherwise disclosed.
